Please detail any other forms of additional support you would find useful:

- A few live practice goes to work on improvements.

Learner Feedback

- Good content and engaging. I just think a full day is quite a lot. An aim to finish at 3pm would be better in my opinion.
- Found it very engaging and useful tools that can be applied to client meetings. I'm new to the role so I am always looking for ways to improve or frameworks that can be applied.
- Course was useful, providing a framework for negotiations and suggesting some tools for preparation to enhance conversations.
